

GROWS IN MAGNITUDE

WRECK ON THE BALTIMORE AND OHIO MORE SERIOUS THAN AT FIRST REPORTED.

DEATH LIST IS FIFTY-THREE

THREE SCORE OF OTHER PEOPLE INJURED, SEVERAL OF WHOM CANNOT RECOVER.

Washington, Jan. 1.—The Baltimore and Ohio wreck at Terra Cotta grows in magnitude. The most conservative estimate of the dead now is fifty-three, with three score of injured in the hospitals or at their homes suffering from wounds and fractures sustained in the rear end collision, which completely demolished the two day coaches and the smoker attached to the local Frederick, Md., express No. 66. Several of the most seriously injured are expected to die during the night and the death list may yet reach sixty or more.

Pitiful were the scenes at the city morgue, where hundreds of persons flocked to assist the police in the identification of the dead. Women, girls and even men with iron nerves shrieked, sobbed and fainted as their relatives or friends were found among the thirty-two corpses strewn about the floor. Coffins, wicker baskets and winding sheets were found on all sides.

Officials of the Baltimore and Ohio railroad are conducting an investigation of the wreck in Baltimore for the placing of the responsibility for the disaster. General Superintendent Todd exonerates Milton W. Phillips, the operator at the Takoma block station, the last signal station that the equipment train passed before crashing into the passenger train at Terra Cotta. The superintendent declared that Phillips was obeying instructions when he went home at 6:30 o'clock, leaving the "Double Green" signal burning.

While making no positive charge Superintendent Todd intimates that the blame would fall upon the engineer and crew of the extra. The five members of the crew, who were arrested shortly after the accident are now being held to await the result of the official investigation. They are: Harry H. Hilderbrand, engineer; Ira C. McClelland, fireman; Frank F. Hoffer, conductor; Ralph Rutter, brakeman; William A. Norris, baggage-master.

Cannot Make a Statement.

Gazing vacantly between the iron bars of his cell, Engineer Hilderbrand is too full of emotion to make any definite statement. "It will all come out at the investigation," he said. "I don't believe that there is anything for me to say and I couldn't say it if there was." Before he was arrested the engineer made a statement to the Associated Press in which he declared that if the danger signal light was displayed at Takoma he failed to see it on account of the dense fog.

Melton W. Phillips, the operator, who is also a prisoner, says the equipment train ran past his danger signal at a speed of from fifty to sixty miles an hour. He says there was a heavy fog but not enough to hide a red light. He declares he immediately notified the operator at University station that the train had taken the block against orders. His statement is corroborated by the University station operator, who says he received the message. Policeman J. T. Kennedy stationed at Takoma Park will testify that he saw the signal light in its proper place and that Hilderbrand drove past the signal. Fred Lemkum, gatekeeper at Takoma, makes a similar statement.

C. W. Galloway, general superintendent of transportation for the Baltimore and Ohio railroad, exonerated the company from all blame and put the responsibility on the engineer of the equipment train or the operator at Takoma block. "If the coroner's jury fails to hold the engineer or the block operator," he said, "we shall not consider the matter settled. We shall go to the bottom of the wreck. This horrible catastrophe could have been avoided. Some one is responsible and we intend to leave no stone unturned until the responsibility has been fixed. The Takoma block system was installed two years ago and is the safest known to railroad men."

To Make a Special Investigation.

Chairman Knapp of the interstate commerce commission said the commission has considered the advisability of making a special investigation into the cause of the wreck. No decision has been reached as to when this investigation will be made. Another member of the commission in discussing the proposed investigation said:

"It has been suggested that we ought to have an expert present at the coroner's inquest and that may be done, although he could not take any part in asking the questions."

"But it is probable that under the joint resolution instructing us to investigate and report on the operation of the block signal system we could make a special inquiry in this and the commission will take up as soon as possible the question of doing so."

J. W. Kelly, trainmaster for this division, with headquarters at Baltimore, is in Washington to make further investigation into the cause of the wreck and to assist in restoring affairs to their normal condition. He declared that to locate the responsibility for the disaster at this time was an utter impossibility.

As a manifestation of sorrow and sympathy for all afflicted by the disaster, district commissioners have ordered that flags on all public buildings in the district be displayed at half mast until after the funerals of the victims.

The railroad company is sparing no expense in providing for all the injured at the hospitals.

IMPORTANT DEVELOPMENTS.

Forecasted to Occur in France This Year.

Paris, Jan. 1.—The writers who review the events of the year and indulge in forecasts of the future unite in anticipating that 1907 will witness the most important developments in the continuation of the struggle which the French democracy is waging against the old regime. The end of clericalism with the separation of church and state, is an accomplished fact and no longer an issue, although echoes of this conflict probably will be heard for a long time to come and the extreme Socialists are anxious to press the war against capitalism. Led by M. Jaures, the aim of the Socialists is distinctly the expropriation of property, but no one imagines that there will be a regime of pure Socialism in France.

The Clemenceau cabinet draws a sharp line at what is attainable. Premier Clemenceau has abandoned many of the old ideas for the regeneration of the state on the Socialistic basis which he formerly entertained and now stand firmly for the amelioration of the condition of the workingman.

The cabinet stands committed to supplement the weekly rest day law and the employers' liability act passed in 1905, with an eight-hour labor law, old age pensions, the gradual purchase of railroads by the state and the transfer of the heaviest burdens of taxation upon the rich by the imposition of income and inheritance taxes and as a result even government bonds, in which French savings are largely invested, are threatened.

The proposal to shift taxation to the shoulders of the wealthy classes, coupled with the great increase in taxation necessary to meet the cost of new legislation in the interests of the working classes, such as old age pensions, has created much nervousness, and in spite of the fact that the French financial situation is exceptionally strong, that the Bank of France is bursting with gold and that all industries are active, rentes fell over three points in 1906, and there is a steady migration of capital seeking foreign investment.

FOR THE TRIAL OF HARRY THAW.

Notice of Application for Special Panel of Jurors Made.

New York, Jan. 1.—Notice of an application has been served on Clifford W. Hartridge, of counsel for Harry K. Thaw, to be made in the supreme court, criminal branch, for the selection of a special panel of 200 jurors for the trial of Thaw, which is to begin Jan. 21. The panel is made up of 500 men who have already been examined for their qualifications.

Evelyn Nesbit Thaw, the prisoner's wife, is credited with a denial of the report that her mother, Mrs. C. J. Holman of Pittsburgh, would come to this city and testify against Thaw when he is tried for the murder of Stanford White. Mrs. Thaw intimated that her mother would be a witness for the defense.

FIGHTS WITH MASKED ROBBERS.

Station Agent at York, Neb., Puts Bandits to Flight.

York, Neb., Jan. 1.—C. C. Morris, night agent for the Burlington, grappled with two masked robbers and beat them off at an early hour in the morning. One stood guard over him while the other rifled the cash drawer. Morris struck his guard senseless with a fire shovel. Then he grappled with the other robber, who had his hands full of money. They fought their way to the platform and were engaged in a terrific struggle when the other robber recovered. He came to the platform, called to his companion and they ran off in the darkness. As they left they fired two shots at the agent, but he was not injured.

ROOSEVELTS IN WASHINGTON.

Return From Their Brief Sojourn at Pine Knot.

Washington, Jan. 1.—President and Mrs. Roosevelt and party returned here at 9 o'clock p. m. after their short sojourn at "Pine Knot," Mrs. Roosevelt's country place. One of the president's aides met him at the depot.

GIFT BY ROCKEFELLER

OIL MAGNATE GIVES THREE MILLION DOLLARS TO CHICAGO UNIVERSITY.

GOES TO ENDOWMENT FUND

MAJOR PORTION OF NEW DONATION SWELLS RESOURCES OF INSTITUTION.

Chicago, Jan. 1.—A new year's gift of nearly \$3,000,000 has been presented by John D. Rockefeller to the University of Chicago. This brings Mr. Rockefeller's gifts to the university up to a total of \$19,416,922.

Announcement of the latest donation was contained in a letter from John D. Rockefeller, Jr., to Acting President Harry Pratt Judson.

The major portion of the new year's gift is to go to the permanent endowment fund of the university, and for this purpose securities with a market value of \$2,700,000 are provided. The remainder of the gift—\$217,000—is to make up the year's deficit, to provide for an increase in the salaries of instructors and to allow appropriations for various purposes. The \$2,700,000 addition to the endowment brings this fund to \$10,452,616.

Mr. Rockefeller's provision for an annual increase of \$40,000 in the salaries of instructors enables the trustees to proceed along more liberal lines.

This latest gift of Mr. Rockefeller follows the visit made to New York a few weeks ago by Acting President Judson, President Martin A. Ryerson and Treasurer C. L. Hutchinson of the board of trustees and Business Manager Wallace Heckman, when they went over the budget with Mr. Rockefeller.

PROMISES A SENSATION.

William O'Brien Predicts Interesting Revelations in Ireland.

London, Jan. 1.—Speaking at Cork after the unopposed election of Daniel D. Sheehan as member of the house of commons for mid-Cork, William O'Brien, Nationalist, threatened revelations of the financial methods of the "Redmonites," which he said would be of greater national interest than anything that has occurred in Ireland since the Parnell commission.

Mr. Sheehan resigned his seat because, being a follower of Mr. O'Brien, the party stopped his allowance but the "Redmonites" did not attempt to fight his re-election and according to Mr. O'Brien the legal procedure afoot will result in the threatened revelations.

MILLIONS ARE STARVING.

Famine Conditions in China the Worst in Forty Years.

Peking, Jan. 1.—Owing to the excessive rains and consequent failure of crops, the famine in the north of Anhui province in the east of Honan and in the whole north of Kiangsu is worse than at any time during the past forty years. It is estimated that 4,000,000 persons are starving. Tens of thousands are utterly destitute and are wandering over the country. The danger is increased by the activity of the secret societies, as the wanderers are gladly joining them in order to obtain rice. About 50,000 refugees have reached the vicinity of Nanking in a pitiable condition. The authorities are unable to cope with the situation.

WILL SUCCEED PATTERSON.

Simon Guggenheim to Be Senator From Colorado.

Denver, Jan. 1.—Simon Guggenheim's election as United States senator to succeed Thomas M. Patterson is assured by the action of the Republican members of the general assembly in caucus. Mr. Guggenheim's candidacy was endorsed by a vote of 68 to 1. Seventy of the 100 members of the legislature are Republicans and all but one of them participated in the caucus.

Mr. Guggenheim is thirty-nine years of age, and is a son of the late Meyer Guggenheim of New York. He is a very wealthy man, and is a member of the executive committee of the American Smelting and Refining company.

Committing Depredations in Cuba.

Havana, Jan. 1.—A report has been received by Governor Magoon from Governor Sobrano of Pinar del Rio province, saying that an armed band, variously estimated to number from two to twelve men, is committing depredations in the country between Guanacay and Cape San Antonio.

Bryce May Be Knighted.

London, Jan. 1.—It is declared that knighthood will probably be offered to James Bryce, the newly appointed British ambassador at Washington.

THE ALGECIRAS CONVENTION.

Formally Signed at State Department in Madrid.

Madrid, Jan. 1.—The formal signing of the Algeiras convention took place at the state department here in the presence of the representatives of all the nations who took part in the conference. The ratification of the United States contributes the reservation formulated by Henry White, who was head of the American delegation to the conference on April 7, and the resolution passed by the American senate on Dec. 12.

The reservation made by the American government sets forth that it does not accept the obligation of responsibility with regard to the measures necessary to carry out the provisions of the protocol. The signatures of the American delegates at Algeiras were preceded by the words:

"Under reserve. This declaration made at a plenary sitting of the conference in April, 1906."

After the conclusion of this formality there was a gala banquet in honor of the plenipotentiaries, at which the members of the cabinet, the diplomatic representatives in Madrid and prominent Spanish statesmen were present.

King Alfonso has declared the nomination of the mother of the Duke of Almodovar to be "Duchess of Algeiras" in recognition of her son's work as president of the Algeiras conference.

The Duke of Almodovar died June 23, 1906.

BOYCOTT OF FRENCH GOODS.

The Osservatore Romano Hopes That It Will Spread.

Rome, Jan. 1.—The Osservatore Romano has begun the publication of "protests of the Catholic world against the persecution in France." The paper gives the place of honor to a cablegram sent from a meeting held in Boston under the presidency of Archbishop W. O'Connell, and second in line is a cablegram from a meeting of Catholics held in Washington, signed P. J. Donovan. The paper says that manifestations of this nature show how deep and universal is the sympathy of Catholics in the trials and bitterness of the church and its holy father.

The Osservatore Romano expresses joy at the reported decision of the Long Island Knights of Columbus to boycott French goods, and expresses the hope that this step will be imitated.

The Jesuit review, Civitta Cattolica, has opened a special subscription for Peter's pence to defend the freedom of religion in France and to help the French clergy. It has already collected over \$12,000.

CHICAGO IS SELECTED.

Next Meeting Place of Association for Advancement of Science.

New York, Jan. 1.—At a meeting here the American Association for the Advancement of Science selected Chicago as the next meeting place, the association to convene in the Christman-New Year's week of 1907. These officers were elected:

President, Professor E. L. Nichols of Cornell university; general secretary, President F. W. McNair, Houghton, Mich.; secretary of council, Professor William Harper Davis, Easton, Pa.

There will be no summer meeting this year, but there is a prospect that the association will meet in Winnipeg, Man., in the summer of 1908.

GOVERNOR WARNER ILL.

Chief Executive of Michigan Cannot Be Inaugurated This Week.

Detroit, Jan. 1.—Governor Warner's condition is said by his physician, Dr. Henry J. Hartz, to preclude his going to the capitol at Lansing inside of two weeks. During the day it had been hoped that the governor would be able to go to the capitol Tuesday night. Dr. Hartz stated, however, that the inflammation of the governor's throat had affected the tonsils and bronchial tubes to such an extent that an attempt to go to Lansing to be inaugurated for his second term as governor would expose Governor Warner to the danger of bronchial pneumonia.

PRINT PAPER MILL SYNDICATE.

New Trust to Take the Place of the General Paper Company.

Appleton, Wis., Jan. 1.—A print paper mill syndicate, capitalized at several million dollars and including every newspaper mill in Wisconsin, Michigan and Minnesota, is in process of formation, according to a semi-official report just given out. The syndicate is said to have been decided upon to take the place of the General Paper company, which was ordered out of existence several months ago by the federal courts, its operations having been contrary to the Sherman anti-trust law.

Will Be Buried in Westminster.

London, Jan. 1.—It is announced that the remains of Baroness Burdett-Coutts, who died at her residence here, will be buried in Westminster Abbey. The offer was made to Mr. Burdett-Coutts by the dean of the abbey, after consultation with the colleagues in the chapter and accepted.

A Miraculous Cure.
The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and \$1 at H. P. Dunn & Co's drug store.

An Extraordinary Migration.
One of the greatest mysteries to scientists, one for which there seems to be no reasonable explanation, is that concerning the migration of the lemming, or Norway rat. Instead of taking place once a year, these migrations occur only once in eleven years. When the time comes for the exodus the little animals journey westward from Scandinavia, allowing nothing to stop their movements, which virtually amount to a headlong flight. They swim the lakes and rivers and climb the highest mountains in incalculable numbers, devastating the whole country through which they travel. Naturalists attribute the movement to some inherited memory of a flight to escape an expected cataclysm, but this seems somewhat far fetched.

An Old Roman Mint.
A completely equipped Roman mint was discovered in a cave in the neighborhood of Kayosovar, Hungary. Besides crucibles, which still contained bronze, there were three dies for the production of gold coins, dies of silver, bronze and iron ore and 300 coins. The investigation made showed that the workshop dated from the first century of the Christian era. A number of neatly worked earrings, bracelets and other objects of bronze, as well as tools, such as hammers and tongs, were also found.

Reassured.
"Did you hear that noise? What can it be?" demanded the janitor of the fashionable apartment house. His wife went out into the hall and returned. "It was nothing but a rat," she said.

"Ah," sighed the janitor, greatly relieved. "I thought it was a child."—Bohemian.

London's Fogs.
November is London's worst month for fogs. During a good year the Londoner may have to breathe only fifty fogs. In a very bad year he may have to endure as many as eighty. London's countless coal fires, mingling soot with mist, concoct the Londoner's fog for him. The great majority of fogs in the metropolis begin to form between 7 and 8 in the morning, just when most fires are being lighted.

Changed.
"Hello, Pepper, old chap!" exclaimed a man to another. "You have altered—scarcely knew you."

"My name—haw—is not Pepper," protested the other haughtily.

"Ah," remarked the first speaker, in no way abashed, "then your name has altered too! By-by."—London Mail.

NO CAUSE FOR ALARM

SECRETARY SHAW SAYS THE FINANCES OF THE COUNTRY ARE IN GOOD SHAPE.

BLESSINGS ARE MULTIPLIED

ONLY ANXIETY NEED BE FAILURE TO GARNER AND STORE AND TRANSPORT THEM.

Washington, Jan. 1.—"There is no occasion for alarm. Our only anxiety need be lest we fail of facilities properly to garner, store, transport and market our multiplied blessings. Let every man be of good cheer and try to be conservative in everything except thankfulness."

Secretary Shaw thus concludes a resume of the year's financial record which he says has been prepared in response to multiplied requests. In round numbers he places the receipts for the calendar year 1906 at \$625,000,000, and expenditures at \$566,000,000, or an excess of receipts over expenditures of \$59,000,000. As there has been no change in the tariff laws or the laws relating to internal revenue, Secretary Shaw says the large increase in receipts is due solely to the extraordinary trade activity. The total expenditure, however, for 1906 as compared with 1905, he says, shows a decrease of only \$5,000,000.

Discussing the finances of the government for the six months of the present fiscal year just closed the secretary says that the books of the treasury show surplus receipts over expenditures of \$25,000,000 as compared with a deficit of \$8,000,000 for the corresponding months of the previous year. The cash in the treasury is \$190,000,000. The cash in national bank depositaries is \$159,000,000 and the total cash in the general fund is \$356,000,000 as against \$242,000,000 a year ago. Against this cash there are liabilities at the present time of \$13,000,000 greater than at the same time last year. The available cash balance has increased during the year \$101,000,000.

Bonds Could Be Paid Now.
With the general fund standing at \$237,000,000, Secretary Shaw remarks that the bonds maturing July 1, 1907, can be paid, if it shall be deemed wise, and still leave a working balance of more than \$120,000,000. If the owners would accept the money, he says, the bonds could be paid now, but he doubts whether any considerable number of the holders would accept payment at this time because they are of the class who care for little else than certainty of security and exemption from taxation.

Mr. Shaw says he has thought best, however, to leave it to his successor the discretion of paying these bonds at maturity or of refunding such portion as he may deem appropriate.

During the past twelve months, the secretary continues, the money in actual circulation, exclusive of the amount in the treasury vaults, has increased more than \$200,000,000. Of this increase \$145,000,000 is available for bank reserve and \$60,000,000 is in national bank circulation.

"This," he says, "seems to be a complete answer to the oft-repeated and ill-advised criticism that the independent treasury system necessarily results in contraction when money is most needed."

Treasury System Not to Blame.
He maintains, therefore, that the existing money stringency, world-wide in its extent, is traceable in no respect and in no degree to the independent treasury system of the United States. He says the manifest and admitted shortage has been caused by the unprecedented prosperity in this country and reasonable prosperity everywhere. The people of the United States, he declares, consume more capita, more food, more clothes, more of everything than any other people in the world, and when prosperous they import very largely. This, he asserts, naturally encourages industry everywhere and unusual business activity calls for an unusual amount of actual money and of credits based on actual money.

As to the currency system reformists, Secretary Shaw says that in his judgment it permits adequate expansion, but that its weakness is its failure to produce contraction. The volume of money, he continues, does not respond to the volume of our business. The annual increase, he adds, may be sufficient, but there is no annual contraction during the dull summer months. "Only the unthinking and ill-advised," he says, "charge the admitted stringency solely or largely to stock and bond speculation."

Inaugural Festivities Begun.
Albany, N. Y., Jan. 1.—A brilliant military ball under the auspices of Squadron A of New York as military escort to Governor-Elect Hughes, began the festivities and ceremonies incidental to the inauguration of the new governor of the state and the assumption of office by the new state administration and legislature.

Fishing Vessel Burned.
St. Johns, N. F., Jan. 1.—The fishing vessel Ralph Hodgson, with 600 barrels of herring on board, took fire at Bay of Islands at night and was burned to the water's edge.

AMUSEMENTS

"Peggy From Paris"
"Peggy from Paris," George Ade's musical comedy hit is coming to this city and will be the attraction at the opera house next Monday, January 7th. Of all the recent musical successes "Peggy from Paris" is one of the most notable. It ran four months in New York, five in Boston and three in Chicago. This is the best proof that could be offered of its entertaining qualities. If the opinions of the critics and the public in these cities and in every other in which "Peggy from Paris" has been presented, can be taken as a guarantee, this play is particularly strong in wit, humor, originality and novelty. The very mention of Mr. Ade's name as the author is proof of the laugh-creating elements of the piece. There are droll characters and funny complications from the first to last. Indeed, "Peggy from Paris" is a mirth maker. All the persons in the play and everything they say and do is amusing. Then there is delightful music which was written by J. A. Raynes. There is a great variety to the melodies but all are bright and catchy and of the kind that tinkle in memory after the hearer leaves the theatre. The chorus numbers are especially effective. They are bright and spirited and they combine movement and melody, for graceful and fanciful dances accompany the verses. Take a succession of pretty airs and have them sung by a score of pretty girls in strikingly picturesque costumes and there is something worth listening to and seeing. Add to this an interesting story, a fund of comedy, a company of skillful comedians and there is about all one could ask for in a musical play. "Peggy from Paris" offers all this and more, for there is beautiful scenery and a series of admirable stage pictures.

A Western Wonder
There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure Cough and Cold cure. Guaranteed by H. P. Dunn & Co., druggists. 50c and \$1. Trial bottle free.

A "Tip" from the Opera House.

A wise St. Paul Opera manager, in talking a few days ago about a show which had been a failure, quoted Tom Robinson, an English dramatist, to the effect that "A play is a good deal like a cigar; if it is bad, no amount of puffing will MAKE it draw, and if it is good, everybody wants a box."

The play's the thing that the people want after all, and this bit of philosophy is just as applicable to hosiery as it is to musical comedy or serious drama.

When you hear the American Girl or Boy stocking mentioned, isn't your first thought of how well they wear? This is true with 500 families to whom we have sold the American Girl or Boy Hose. We are not bragging, but when you want good hard wearing Stockings for the boys and girls just keep in mind that the American Girl and Boy fleeced lined stockings are the best.

SITUATION MORE SERIOUS.

Floods Delay Work of Closing Break in Colorado River.

Imperial, Cal., Jan. 1.—A heavy rain is now falling, further complicating the serious situation on the lower Colorado. Floods of the Gila and Salt rivers are now pouring into the larger river, which washed away ten tents on the new trestle from which it was expected to begin dumping rock in a day or two. This delays work for a week or ten days. As the time for the closing break is already limited this renders the situation more critical. It is becoming daily more apparent that unless the government comes to the rescue the situation will be hopeless for the residents of Imperial and Coachella valleys. Nothing but the most desperate measures can control the Colorado river before the summer floods and then it will be impossible to control it. There is no menace to the lives of the people, but unless the river is conquered the country must become untenable, for the 10,000 or 12,000 residents.

CALENDARS FOR THE YEAR 1907

Brainerd Firms Send Out Hand-
some Specimens of this Form
of Advertising

HAVE MANY BEAUTIFUL DESIGNS

Descriptions of a Few of the Hand-
somest Calendars that are
Being Distributed

Brainerd business men are sending out the handsomest advertising in the line of calendars and holiday souvenirs this year in the history of the city. Of course not all have fallen under the notice of the DISPATCH, but those that have are many of them worthy of especial mention.

In variety of design and beauty of execution the First National bank is well to the fore. Their large business calendar is even prettier than those of the preceding years. The design this year is entitled "Saturday Afternoon," and represents a young man and two young ladies in a buggy driving over a country road. The coloring is fine and the entire picture shows the vivid atmosphere of the middle west. It is from an original painting by Richard Lorenz, the noted German-American painter.

Their house calendars consist of four designs from the painting of Philip Boileau, of Quebec, and one from the paintings of C. C. Curran, the latter entitled "Nocturne," representing a young girl playing a violin in the corner of a darkened music room. The subjects from Boileau are entitled "Poppies," "Violets," "Wild Roses" and "Chrysanthemums," each portraying a young lady carrying a bunch of those flowers. They are all certainly very beautiful and artistic conceptions.

The Citizens State bank was reorganized too late for them to get in any order for art calendars had they so desired, but they have put out a large plain calendar and have presented their patrons with handsome souvenir purses carrying an advertisement of the bank on the inside of the cover.

H. W. Linnemann has given his customers a beautiful calendar. The design is entitled "The Young Lovers," and represents a boy and a girl of seven or eight in fond embrace. The design is embossed, the figures being raised. The calendar is rich and harmonious in coloring.

John Carlson has put out a calendar that is also challenging the admiration of all who see it. It is embossed in black and white and represents a small boy showing an egg to a Brahma rooster. Underneath is the legend, "Not Guilty."

Louis Hohman has a handsome calendar, a young lady representing "Winter." It certainly proves "Acht Louie," a good judge of feminine loveliness, but her bare arms and bosom look rather airy for a Minnesota New Year. The colors are rich and warm and the pose is graceful.

The Slipp-Gruenhagen Co. has two handsome designs from original paintings. "Waiting for their Master," shows a cat and dog sitting before a door waiting the coming of their master "The Loose Shoe," represents a young girl holding her saddle horse before the door of a country smithy, while the blacksmith tightens a loose shoe. Both are beauties.

Henry I. Cohen has a handsome

calendar bearing a reproduction of the famous painting, "The Girl in the Green Gown," by John W. Alexander. It is certainly a beauty. Among the smaller calendars shown is "The Horse Show," put out by Brockway and Parker. Sam says it had to have a horse on it if Billy had anything to do with it. Jas. R. Smith has a neat small calendar showing "Miss Mischief," a girl of sweet sixteen who looks as if she intended to have all the fun out of life possible.

A description of calendars received would not be complete without mention of those put out by H. J. Hage, the Deerwood merchant and banker. They are beauties. The business calendar bears a handsome woodland view in old Virginia. The picture is 12x16 inches and one of the handsomest seen this year. The house calendars are equally handsome, but smaller in size.

HOTEL CHANGED HANDS

H. D. Blackwood Took Possession of the
Frisbee Hotel Monday—Sister
Will Run It

H. D. Blackwood, of Duluth, took possession of the hotel Frisbee on Monday, having purchased the furniture and good will of Mrs. E. S. Frisbee. Mr. Blackwood has a grown son who will assist him in the work of running the hotel and it is reported that a widowed sister will come on from Duluth and take charge as housekeeper.

The sale of the hotel to Mr. Blackwood is the direct outcome of the recent action of some of the leading citizens to put a stop to blind pigging, and of Mr. Frisbee's hasty departure. The temperance element of the community have the assurance of Mr. Blackwood that the hotel will be hereafter run according to law and are much rejoiced over the outcome.

WENT THROUGH THE TURNTABLE

Big Engine 2367 was too Heavy
for the old Turntable at the
Round House

BROKE IT DOWN MONDAY NIGHT

The Monster Came near Toppling
over—Jerry Flickwir Made
Quick Getaway

The service on the Northern Pacific out of Brainerd has been hampered by a peculiar accident which happened at the round house Monday night.

Jerry Flickwir was putting engine No. 2367, one of the new monster "twenty-three hundreds," so-called, over the turntable when it began to give way and the big engine began to roll from side to side like a ship in a heavy sea. The boys around the round house say that Jerry made a record time in getting out of the cab and onto terra firma. She finally quit rocking and settled down right side up. The engine was then blocked up and finally coaxed onto the solid track. Two of the three switch engines in the yards were imprisoned in the round house as were all the road engines in the city at the time. It looked as if it would be some time before they would get out and orders were hurried to Duluth for two switch engines to be forwarded to this place. It was also thought that it would be necessary to send the M. & L. engine, which brought No. 30 down from Big Falls, to St. Paul with No. 90, while the engine on No. 90, which was an hour and a quarter late, would take 31 north on the M. & L.

Supt. Anderson, just before noon, however, succeeded in getting the turntable patched up temporarily and got the switch and passenger engines out of the round house, and the orders to Duluth were countermanded. One switch engine was already on its way here but it was turned back.

The company has a new turntable under course of construction in the round house at this place and work on it, which is necessarily slow, will be pushed as rapidly as possible.

Builds up waste tissue, promotes appetite, improves digestion, induces refreshing sleep, gives renewed strength and health. That's what Hollister's Rocky Mountain Tea does. 35 cents, tea or tablets. H. P. Dunn & Co.

BOUGHT BANK FIXTURES

H. J. Hage Has Purchased the Fixtures
of the Aitkin County State Bank
of Aitkin.

H. J. Hage, who recently established the bank of Deerwood and operated it in connection with his large general merchandise building there, on Monday purchased the fixtures of the Aitkin County State Bank of Aitkin. They will be installed, probably in the spring, in one room of his store at Deerwood. The Aitkin bank is replacing them with steel fixtures. Mr. Hage reports a good banking business in Deerwood, his deposits are steadily improving, and he has found the field better than he expected.

Toger Peterson Decides Not to Move Into
The Butcher Shop in the Walker
Block as Intended

The deal announced some time ago by which Toger Peterson, of the Maple street meat market purchased the outfit and stock in the Walker market at the corner of Seventh and Laurel streets, has in part fallen through. When it came to signing up the lease of the building the parties could not come to an agreement and Mr. Peterson decided to remain in his own building on Maple street. He purchased the stock in trade of Mr. Walker but the deal on the equipment and the lease of the building has been declared off.

A Christian Character

EDITOR DISPATCH:—I know that "for Auld Lang Syne" sake you will permit me space for the following few words in defense of a fair woman's name. I have the honor of the acquaintance of Miss Adelaide Thurston, am proud to be counted among her friends. She is, as all know a Duluth girl and her family are among our Methodist faithful. It was my pleasure and delight to hear the acting of Miss Thurston in her new comedy "The Girl From Out Yonder," twice, in Duluth and here, in your city. Anyone who could hear that play and not be the better man or woman for the experience is hopelessly bad. And all who have the privilege of knowing Miss Thurston in private know that there are few her equals in all sweet, pure, ennobling womanhood and none her superiors. It is not permissible to give her inner life to the world, but because I learned that some in Brainerd who were deprived of the full benefit of her influence in her last appearance in your city because of some one's miserable suspicions made public, I take the responsibility of assuring all her patrons that she is just the same pure hearted woman they have always known and believed in. She is a noble Christian woman, and I wish, knowing her and her life, that all who sit in churches or at home critising her were as good as this talented actress. I have only attended the theatre twice in forty years, and those times it was to hear Miss Thurston. "When she passes this way again, let all the people hear her and give her the eulogy she deserves, and in Duluth always receives, because of her spotless life, as well as her brilliant portrayal of the noblest passions that can move the human heart.
